

CADENAS established a new branch office in Turkey German software manufacturer strengthens its international focus

Augsburg, Germany, 5th May 2015. The CADENAS AG established a new branch office on the Bosphorus on 1 April 2015. With its office in Istanbul, CADENAS Software Solutions Turkey will continue to promote Strategic Parts Management and Electronic CAD Product Catalogs on the Turkish market.

Akin Terzi advises and supports existing and prospective customers in Turkey locally and in their language. His target is to make CADENAS software solutions popular in the region and establish the company as an important partner on the market. "In the long term it is my goal to build a strong and successful bridge between engineers and manufacturers", says Akin Terzi.

Establishing a branch office in Turkey is the consequent pursuit of CADENAS' previous expansion course. In January 2015, a CADENAS new branch office in Bristol, Great Britain, was opened.

In total, the software manufacturer CADENAS, with its head office in Augsburg, Germany, has about 300 employees at 17 worldwide establishments, e.g. USA, Great Britain, France, Italy, China, South Korea, Brazil and Japan.
