CONSTRUCTION

MORE INFO & EXAMPLES AT:
www.engineering-newcomer.com

Participation

You are a student writing a project or final thesis in the field of engineering and development as part of your studies or training?

Show us your construction!

The best works will be awarded with an attractive cash prize for you and your educational institution.

Project submission

Register at www.engineering-newcomer.com and show us your work incl. project description (project result, photos, screenshots, tasks, components used). The deadline is July 31, 2022.

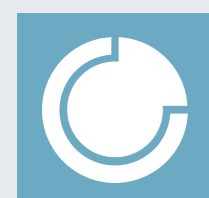

Score extra points by uploading your design as **CAD & STEP files to PARTcloud.net in the category „Challenges/Engineering Newcomer 2022“.**

Evaluation criteria

Your work will be evaluated by a jury of experts based on the following criteria:

- Innovation, creativity
- Practical use, technological benefit, market opportunities
- Use of standard/purchased parts, cost consideration, variability
- Extra points awarded for the use of norelem parts (free CAD download at www.3DfindIT.com)
