

# Setting Standards

## About the CADENAS GmbH

CADENAS is a leading software manufacturer in the areas Strategic Parts Management and parts reduction (PARTsolutions) as well as Electronic CAD Product Catalogs (eCATALOGsolutions). With its customized software solutions the company acts as a link between component manufacturers and their products, and the buyers.

With its 300 employees in 17 locations worldwide, the name CADENAS (Spanish for "chains") has stood for success, creativity, support, and process optimization since 1992.

In its role of initiator and mastermind, CADENAS has already established many innovations and trend in both areas of expertise.

### **PARTsolutions Innovations:**

- The PURCHINEERING strategy aims at the optimized cooperation of the purchase and engineering department
- Find components in an intelligent way: Geometric Similarity Search, search with a 2D sketch, full-text search, topology search, cloud navigator search, unmachined parts search, color search, partial search

### **eCATALOGsolutions Innovations:**

- Smart Parts – Intelligent 3D CAD models
- 3D CAD models app – mobile access to millions of 3D CAD models
- PARTcommunity embedded – seamless integration of the 3D CAD download portal in corporate websites
- The Smart Catalog – the print catalog becomes digital
- ePRODUCTplacement – make the right part available to the right person at the right time
- Support of the Augmented Reality technology
- Engineering knowledge database and engineering challenges
